

FOR HEALTH CARE PROVIDERS

DEDICATED ACCESS SUPPORT WHEN PRESCRIBING CHOLBAM[®] (cholic acid) capsules

**Mirum Access Plus (MAP) Is With You
Every Step of the Way**

**MAP works alongside you and your patients at every turn—
offering dedicated support when and where it's needed.**

MAP will support you through the payer approval process and will help determine financial support options for eligible patients

MAP helps your patients understand the process to access their prescribed medication and keeps them informed along the way

MAP also offers enrolled patients educational materials, referrals to outside resources, and ongoing support

INDICATION

CHOLBAM[®] (cholic acid) is a bile acid indicated for

- Treatment of bile acid synthesis disorders due to single enzyme defects.
- Adjunctive treatment of peroxisomal disorders, including Zellweger spectrum disorders, in patients who exhibit manifestations of liver disease, steatorrhea, or complications from decreased fat-soluble vitamin absorption.

LIMITATIONS OF USE

The safety and effectiveness of CHOLBAM on extrahepatic manifestations of bile acid synthesis disorders due to single enzyme defects or peroxisomal disorders, including Zellweger spectrum disorders, have not been established.

Please see Selected Important Safety Information on the last page and full Prescribing Information for CHOLBAM.

Monday to Friday, 8 AM to 8 PM ET

Understanding the Steps

HELP YOUR PATIENTS SECURE ACCESS TO CHOLBAM[®] (cholic acid) capsules

After prescribing CHOLBAM, you play an important role in helping your patients access their medicine without delay.

STEP 1

Complete the Patient Enrollment Form

- **Include insurance information** by providing a copy of the patient's insurance card (front and back) and/or a copy of the patient's demographics from electronic medical records. Ensure that the prescription drug benefit information or card is included
- **Complete all required fields** (marked with an asterisk) to avoid processing delays
- **Encourage patients/caregivers to consent** to receive MAP services and text messages to get the most support from the program

STEP 2

Determine Insurance Coverage

- **A dedicated MAP Coordinator will perform a benefits verification**, which will determine:
 - Coverage of CHOLBAM and whether an authorization is necessary for the patient's health plan
 - Patient need and eligibility for financial support options that may help with out-of-pocket costs, such as a \$0 savings program* or the potential to receive the drug free of charge[†]

STEP 3

Complete Payer Approval Process

- **The correct prior authorization (PA) or medical exception (ME) form will be provided to your office from MAP or directly from the payer.** MAP will follow up with the payer until a determination is made
- Once approved, the **coverage authorization status will be communicated** to your office and the patient or caregiver

*Pay as little as \$0 per fill for commercially insured patients. Subject to program terms and conditions.

[†]Drug free of charge through the Mirum Patient Assistance Program (PAP) if you are uninsured or your health plan does not offer coverage. Subject to program terms and conditions.

PRESCRIBING OPTIONS:

Fax the CHOLBAM Enrollment Form to 1-855-282-4884

E-prescribe CHOLBAM to EVERSANA Life Science Services

STEP 4

STEP 5

**Appeal a Denial,
if Necessary**

- In the event of a denial, **MAP will share potential options for the appeal process**, including initiating a peer-to-peer discussion with the payer or assistance with submitting a formal appeal
- If the appeal is denied, **MAP will refer your patient to the Patient Assistance Program (PAP), as appropriate.** Completion of the health care professional portion of the PAP application will be necessary for evaluating your patient's eligibility for the PAP

**SP Dispenses
CHOLBAM[®] (cholic acid)**

- MAP specialty pharmacy (SP) will provide a therapy consultation call covering instructions for use before coordinating the overnight shipment of CHOLBAM to the patient's home
- MAP SP provides 24/7 pharmacist availability for your patients
- MAP will perform active refill management to prevent gaps in therapy and will work with your office to resolve insurance requirements, such as reauthorizations

**Supporting Success
With CHOLBAM Therapy**

MAP offers an enhanced, personalized experience for enrolled patients as they start and stay on therapy. A dedicated team of MAP Navigators will deliver simple and flexible patient support for medication and related wellness.

E-prescribe CHOLBAM to EVERSANA Life Science Services

SELECTED IMPORTANT SAFETY INFORMATION

WARNINGS AND PRECAUTIONS - Exacerbation of liver impairment

- Monitor liver function and discontinue CHOLBAM in patients who develop worsening of liver function while on treatment.
- Concurrent elevations of serum gamma glutamyltransferase (GGT) and alanine aminotransferase (ALT) may indicate CHOLBAM overdose.
- Discontinue treatment with CHOLBAM at any time if there are clinical or laboratory indicators of worsening liver function or cholestasis.

Please see full [Prescribing Information](#) for additional Important Safety Information.
